

Notice

This is to inform you all that building main electrical distribution panel are very old and are fire prone due to old type of switches, cables and changeover system. As per current status distribution panel, switched, cables and changeover system needs immediate replacement to avoid any kind of short circuit. It is almost 35 years old distribution system which needs to be replaced with latest technology LT power distribution panel to have complete protection from any kind of short circuit.

We have caused thorough energy cum safety audit through govt. approved Accredited Energy Auditors (Certified from Bureau of Energy Efficiency, Ministry of Power, Regulation 2010) who are basically having vast experience in this field. According to their recommendation we have to replace entire power distribution system.

Accordingly, we have invited company profile from licensed electrical contractors who are having experienced in replacing of electrical panels and cabling work in high rise buildings. Amongst few qualified contractors, we have shortlisted 3 contractors, whose rates are as follows:

- | | |
|------------------------|-------------------|
| 1) K D Electricals | : Rs. 3,230,680/- |
| 2) Synergy Electricals | : Rs. 3,233,735/- |
| 3) Aadhya Kreations | : Rs. 4,388,650/- |

After negotiation & several meeting, we have finalized M/s K D Electricals who is L-1 (Lowest Bidder).

- | | |
|------------------------|-------------------------|
| 1) K D Electricals | : Rs. 2,780,148/- (L-1) |
| 2) Synergy Electricals | : Rs. 2,898,155/- (L-2) |

Please be informed that M/s K D Electricals who is Lowest bidder is being issued work order at the lowest bid value of Rs. 2,780,148/-.
